

## Health & Safety Management for Engineers

(MQA Approved)

### • Training Objective

Engineers play a very important role in the Health and Safety management of an organization in order to

- Help in improving the health & safety culture
- Motivation of staff working under their supervision.

They have to shoulder several health & safety responsibilities as part of their job such as:

- Carrying out risk assessments,
- Helping in the development & implementation of policies, procedures, safe system of work or permit to work systems, etc.

### • Learning Outcomes

The Health & Safety management induction course will provide learners

- a good health & safety knowledge background in order to help them to carry out their health & safety duties and
- also be able to demonstrate health and safety awareness which is **one of the criteria required for CRPE registration.**

### • Targeted Audience

All Engineers from any Engineering Field.

### • Training Methodology

Classroom lectures & Interactive sessions.

### • Trainer

**Mr Gawtum Jawaheer**

Director of the Integral Training Institute Ltd.

*Chartered Mechanical Engineer as well as Chartered Health & Safety Practitioner.*

### • Date, Duration & Venue

- Saturday 06 March 2021
- 08:30 - 15:30
- IEM House, Cnr. Remi Ollier & Hitchcock Avenues, Quatre Bornes.
